Success Story

MHS/TURN provided services to an individual who was incarcerated for 2 years. The individual has a history of being resistant with services. Since her recent discharge from incarceration, she has been successfully engaging with a Substance Use Counselor and Recovery Specialist to further her sobriety and mental health recovery. She has been working on improving her life choices since being released from jail by entering dental school where she plans on becoming a Dental Assistant. While incarcerated, her mother was given custody of her children. Since her release, she has been regularly engaging with her children on a supervised basis and with encouragement from her mother. She had a recent struggle but has since been on a more productive road to stability. Currently, she has taken on more responsibilities and is the owner and licensed driver of a vehicle. She has learned that It's not the road that we take, it's the destination. She is continuing to work and stay on her road to recovery.

Success Story

Third Tradition has been seeing a lot of success with their AB 109 participants. In March of 2023, one of their male clients completed the full six-month program. During the entire course of the program, he always had clean drug and alcohol tests. In addition, he completed an anger management course and his substance use disorder programs. During his time at Third Tradition, he worked with Employers' Training Resource and secured a job as a truck driver and will be working long-haul routes. He has remained in touch with those at Third Tradition, and has happily shared that he is doing well at work and maintaining his sobriety outside of the home. Third Tradition is honored to be a part of his story and success.

SECTION 5: OPTIONAL QUESTIONS

Section 5 asks optional questions about evaluation, data collection, programs and services, and local best practices. There are 9 questions in this section. Responses will be used by the BSCC and its justice-system partners to better understand the needs of counties. If the CCP chooses not to answer an optional question, please respond “Decline to Respond.”

- 15.** Describe the process the CCP uses to determine potential programs and/or services for local implementation using Realignment funds.

>

Each year, the CCP Public Safety Realignment Act Plan includes funds for the Community-Based Organization (CBO) Program to provide services to AB 109 individuals, positively influencing future behavior through a sustained sober lifestyle, enabling them to secure employment and housing, strengthen family ties, and contribute to their community.

To provide an open, fair, and competitive process, professional service contracts are established by means of a Request for Proposal (RFP) utilizing the CCP's strategic Plan. Once the RFP has been reviewed and approved for legal form and insurance requirements, the CCP establishes an evaluation committee comprised of individuals with working knowledge of the service being provided. RFP notifications include posting on the county website (<https://countynet.co.kern.ca.us/>) and reasonable efforts to ensure that all known vendors (local and non-local) are aware and have the opportunity to respond to the RFP. Such efforts include personal contacts, and email notifications. As the current contracts remain in effect through December 31, 2025, the next RFP is expected to begin development in FY 2024-2025. In addition to an established percentage of Base funds, the CCP continues to show support for this program through contributions of Growth funds, when available.

In December 2022, the Board of Supervisors awarded 10 CBO contracts with a combined amount of \$ \$7,993,563. These contracts became effective January 1, 2023 and will remain in effect through December 31, 2025. AB 109 funding originated from the State and applicants submitted proposals that focus one or more of the following service areas:

- 1) Sober Living Environment (SLE)
- 2) Education/Vocational/Employment
- 3) Case Management
- 4) Other Evidence-Based Programs (EBP) or best practices aimed at reducing recidivism

Contracts were awarded to the following organizations:

- 1) Bakersfield Recovery Services
- 2) Cottage of Hope and Gratitude
- 3) Freedom House Recovery Homes

- 4) Garden Pathways, Inc.
- 5) Minnie Marvels Sober Living for Women and Children
- 6) New Life Recovery and Training Center
- 7) One Door Community Resource and Recovery Center
- 8) Special Treatment, Education and Prevention (STEPS)
- 9) Third Tradition Sober Living
- 10) WestCare California, Inc.

The use of a case management system and annual reports to track services continue to provide information on population management, services, and outcomes. Staff continue to meeting with stakeholders to consider current trends for future RFP development.

The Adult Programs and Supports (APS) unit encompasses the Day Reporting Center (DRC) and the Probation Department's Adult Programming Center (APC). The APC team is comprised of 4 Probation Officers and 10 Probation Program Specialists. This team provides Evidence-Based Programming (EBP) including individual sessions in Effective Practices in Community Supervision (EPICS), Agression Replacement Training (ART), Thinking for a Change (T4C), Moral Reconation Therapy (MRT) and in March 2023, implemented Cognitive Behavioral Interventions-Substance Use Adult (CBI-SUA) to adult offenders who are on active probation, formal felony, mandatory supervision, or Post Release Community Supervision (PRCS).

There were 263 referrals approved to attend the APC program and it has averaged approximately 100 participants and reached over 125 during the fiscal year. Out of these referrals, approximately 90% are on active PRCS who are assessed at a High-Risk level to re-offend. APC had 24 program completions where participants were required to successfully complete several individual sessions in EPICS, and two or more EBP classes in ART, T4C, CBI-SUA, or MRT to receive a successful completion. For this period, there were two participants that completed three EBP classes, more than 15 individual EPICS sessions, and maintained perfect attendance while in the program.

During the fiscal year, the team facilitated more than 12 EBP classes, four ART classess with 28 successful completions, six T4C classes with 33 completions, and facilitated the first CBI-SUA class for adult offenders with four successful completions. MRT is an ongoing weekly class with five successful completions.

The APC Probation Officers work closely with participants in the DRC and APC programs to monitor progression in the programs, refer participants to needed resources including, but not limited to, stable housing and Sober Living Environments (SLE), employment service referrals, vocational programs, complete interventions, and home calls within the community to encourage positive engagement in treatment with the APS unit. Probation Program Specialists work closely with program participants to facilitate EBP classes within fidelity, promote positive changes, skill building, and to develop cognitive social, emotional, and coping skills to reduce anti-social behavior. Program specialists and officers provide a safe and therapeutic environment, case management services, and referrals for additional services to provide stability, meet criminogenic needs, and to promote success and opportunities while in the programs.

Day Reporting Center (DRC) Evaluation Study - The recidivism rates of the DRC participants were investigated in a study conducted by Kern County. The results of the study showed that the DRC program greatly reduces recidivism for high-risk offenders. In the study, three groups were examined. The groups included DRC graduates, individuals who participated in the program for at least 90 days without graduating, and a control group of individuals who did not participate in the DRC but had similar characteristics as program participants. Through the DRC, recidivism rates decreased which in turn saves a substantial dollar amount through a decrease in incarceration, prosecution, defense, courts, supervision, and victimization costs.

For the FY 2022-23, the Day Reporting Center (DRC) has provided services to 275 active participants with an average daily population of 75 participants. There has been a total of 30 participant completions in addition to the first participant completion of the 52-week Batterer's Intervention Program (BIP) that was piloted in July of 2022. To continue to meet the needs of participants, we have increased our DRC program capacity for the Court-Ordered BIP program from 10 to 15 active participants.

Community-Based Organization (CBO) Monitoring - The Kern County Sheriff's Office (KCSO), Kern County Probation Department (KCPD), and Kern County Behavioral Health and Recovery Services (KernBHRS) coordinate to conduct CBO monitoring which involves on-site visits, monthly meetings, and CBO reviews. The Tyler Supervision case management system was acquired to assist CBO providers with participant tracking, service referrals, verification of enrollment, data collection and program quality. The CBOs contracted through the CCP provide various reentry services. These services include residential/transitional housing, transportation, anger management, substance abuse counseling, vocational/educational, family reunification, life skills, Medi-Cal enrollment, parenting and neglect classes, and case management.

Residential Substance Abuse Treatment (RSAT) Statistical Evaluation and Evidence Based Correctional Program Checklist – As part of its grant funded Residential Substance Abuse Treatment program (RSAT), Kern County Sheriff's Office (KCSO) contracted with California State University, Bakersfield (CSUB) to statistically evaluate the effectiveness of that program. The Kern RSAT program was evaluated in 2014 and

2018 by the Board of State and Community Corrections (BSCC) using their EvidenceBased Correctional Program Checklist. KCSO continues to apply the lessons learned from these evaluations for the ongoing improvement of all its in-custody programs

- 20.** We would like to better understand the county's capacity to offer mental health, substance use disorder, behavioral health treatment programs, and/or other services. What type and level of services are now available?

>

KernBHRS provides numerous services to AB 109 participants with chronic and persistent mental illness and/or co-occurring substance use disorders, anger management, peer support systems, transitional housing needs, psychological trauma,

and errors in reasoning or criminal thinking. Services also include linkages to physical health-care providers, community support systems and education/employment resources. The AB 109 programs that provide these services include both in-custody and outpatient post-release mental health and substance use disorder services.

In-Custody Services:

All KCSO Program staff are trained in and utilize Motivational Interviewing during assessment, recruitment, and facilitation of the following curriculum:

- Matrix
- Seeking Safety
- Moral Reconciliation Therapy (MRT)
- Aggression Replacement Training (ART)
- Thinking For A Change (T4C)
- Meditation
- Offender Needs Assessments (ONA)

KernBHRS staff provide these additional services in-custody:

- Crisis intervention
- Individual MH and SUD Counseling
- Group Interventions

Outpatient Services:

- Many in-custody services listed above continue in outpatient settings, maintaining a continuum of care.
- Adult Transition Team (ATT)
- Supportive Pathway Opportunities (SPO)

Crisis Services:

- Mobile Evaluation Team (MET)
- Psychiatric Evaluation Center/Crisis Stabilization Unit (PEC/CSU)
- Co-Response Teams
- Mary K. Shell Assessment Center

Substance Use Disorder (SUD) Outpatient Services:

- SUD services include outpatient, intensive outpatient, residential, and narcotic treatment programs. Each modality is defined by eligibility criteria, treatment goal, and expected service package for each individual enrolled.

- The Recovery Station in Bakersfield provides community agencies and law enforcement partners a place to bring individuals that are under the influence so that they can let intoxication pass in a safe and supportive environment. They are then linked to ongoing behavioral health and substance use disorder treatment.

21. What challenges does the county face in meeting the above program and service needs?

>

The Sheriff's Office faces significant challenges in delivering a variety of different programs for incarcerated individuals, primarily due to short staffing. The shortage hampers our ability to implement and sustain effective programs, impacting rehabilitation efforts and the overall well-being of those in our care. Despite these obstacles, we are committed to finding innovative solutions and addressing staffing issues to ensure the continued provision of essential programs for the incarcerated population.

The Adult Programs and Supports (APS) unit encompasses the Probation Department, Adult Programming Center (APC), and Day Reporting Center (DRC). The programs will continue to work towards improving and expanding services to meet the needs of offenders in the metropolitan Bakersfield area. APS will continue to work to encourage referrals for services for offenders and is continuing to grow the programs. The DRC is also continuing to grow and expand the program to more than 75 participants served daily to meet the treatment needs of participants in Bakersfield as there continues to be a need. Staffing and recruitment remain a focus for DRC in order to close the gap in services offered. The DRC program is working to transition from our prior location at 500 Baker St. to a new location at 3012 Sillect Ave, Ste C, in Bakersfield, CA for FY 2023-24.

Challenges faced to the County and programs will continue to be improving staffing and recruitment. Retention remains a focus for both the Probation APC program and the DRC program with the goal of closing the gap in services offered. Retention and proper training of staff to provide EBP facilitation to maintain fidelity of programming will continue to be an issue and goal for FY 2023-24.

The most recent RFP for the CBO program increased the length of stay from 120 to 180 days. This came after feedback from many CBO providers that the 120 days did not seem long enough for participants to build lasting routines to support their recovery processes. While there have been many successes thus far with the increase in days, there has been an issue with waitlist for individuals to be placed in SLEs. The delays in obtaining housing and services likely increase the risk to reoffend. To address the waitlist, emergency contracts were approved by the CCP and County officials to work with contracted CBOs and certified facilities to provide housing and services to AB 109 individuals. While this is effective in the interim, long-term solutions to the potential formation of waitlists remain to be addressed.

- 22.** What programmatic changes and/or course corrections has the CPP made in the implementation of Public Safety Realignment that it believes other counties would find helpful?

>

The new RFP allowed funding for AB 109 participants to remain in the CBO programs for 180 days, instead of 120 days. CBO providers consistently gave feedback that the shorter stay made it more difficult for participants to complete their programming and build stable routines, which could contribute to increased recidivism rates. The longer

funding period that the current contracts provide allow participants more time to complete courses, obtain employment, and establish a long-term sober lifestyle.

The CBO providers will be using the Annual Report template to improve collection of consistent data.

- 23.** Describe a local best practice or promising program that has produced positive results. If data exists to support the results, please share.

>

Day Reporting Center - The DRC provides various services for high risk offenders which include but are not limited to cognitive behavioral therapy, counseling, drug testing, drug education, educational service, and employment services. The DRC has shown to reduce recidivism by 23% in DRC graduates compared to a control group of similar characteristics. The results of this local study are supported by the results from the Kern County Results First Model, which project a 24% recidivism reduction for this program. Please see the Kern County DRC Study and Results First Brief for more information. <http://kernprobation.com/ab109ccp-realignment/plans-and-reports/>

Matrix (KCSO/BHRS) – The Matrix Model provides treatment for individuals with substance use disorders. The Model utilizes interventions such as Cognitive Behavioral Therapy and Motivational Interviewing for treatment engagement and assisting in maintaining a substance-free lifestyle. The course teaches participants regarding issues surrounding addiction and relapse, receiving direction and assistance from a certified counselor, and familiarizing oneself with self-help programs. In addition, participants are drug tested to ensure sobriety. In Kern County, substance use disorder treatment requires outpatient, intensive, and residential services. During FY 2022-23, BHRS in partnership with the KCSO Programs Unit screened and admitted 53 participants into the in-custody Matrix and Residential Substance Abuse Treatment (RSAT) programs at the Lerdo detentions facilities. Of these, 30 successfully completed the in-custody program.

In FY 2022-23, 154 inmates attended vocational courses during their incarceration. These programs assist participants in overcoming barriers to self-sufficiency and help them in the achievement of their reentry plan goals. KCSO/Bakersfield Adult School program at Lerdo maintains its status as a certified GED testing site. In FY 2022-23, 380 inmates attended educational classes.

In-Custody Programs – In-custody programs provided by KCSO have been demonstrated to have a positive impact on recidivism. In-custody programs provided include GED preparation, Life Skills, Parenting, Anger Management, Domestic Violence, Substance Abuse, Health, and Cafeteria and Food Services including ServSafe testing and certification. KCSO also provides evidence-based programs such as RSAT program using the MATRIX curriculum, Employers' Training Resource Job Readiness, Seeking Safety, Parents on a Mission (POM), Thinking for a Change (T4C), Meditation, Aggression Replacement Training (ART) and Moral Reconciliation Therapy (MRT). In FY 2022-23, 150 unique inmates attended rehabilitative and

evidence-based classes. Validated assessment tools are used to place inmates into programs that directly address their criminogenic needs.

Community-Based Sober Living Environments - The six (6) Community-Based Sober-Living Environments that are contracted with Kern County provide drug/breathalyzer testing, required counseling, and aid participants in educational and employment attainment, all while providing a drug and alcohol-free living environment. In FY 2022-23, these organizations saved 44,266 jail bed days, provided services to 909 participants, with 191 program completions.

The Access and Assessment Center serves as the centralized access system for adults entering mental health treatment outside of the criminal justice setting. During the period of July 1, 2022 to June 30, 2023 (April, May & June 2023 data are pro-rated), the center served 39 AB109 assigned individuals. Access and Assessment Center conducts field assessments for individuals who have challenges with mobility, utilize American Sign Language services for the hearing impaired, and utilize the Language Line for translation services. For individuals with substance use challenges, we directly link them to Gateway Services within the Substance Use Division. If a client doesn't meet criteria for specialty mental health services, we are able to assist them in securing appointments with community providers.

The Adult Transition Team (ATT) serves individuals with serious and persistent mental illnesses who also have a lengthy legal history, which may include multiple incarcerations and those returning from State Hospitals who have received competency restoration services. ATT staff include Recovery Specialists, Therapists, and Substance Use Disorder Specialists who utilize evidence-based treatment approaches. This team works closely with the Kern BHRS CBH team, and the primary point of entry is facilitated by an ATT liaison stationed within the Sheriff's Detention Facilities. From July 1, 2022 to June 30, 2023 (April, May & June 2023 data are pro-rated), ATT served 92 unduplicated individuals with severe mental illness, many of whom had a secondary diagnosis of a substance use disorder and were homeless.

The Mental Health Systems (MHS), Kern ACTION is contracted with KernBHRS to provide intensive outpatient treatment to AB 109 individuals who do not respond to traditional outpatient treatment. The service delivery model known as Assertive Community Treatment model (ACT) assists these AB 109 individuals with severe and persistent mental illness which contribute to severe functional impairment in several life areas, and who have a history of criminal justice system involvement. The goal is to reduce frequent psychiatric hospitalizations, homelessness, reoccurring incarceration, and assist individuals in developing meaningful activities in the community and to improve their lives through mental health recovery services. From July 1, 2022 to June 30, 2023 (April, May & June 2023 data are pro-rated) 87 unduplicated individual were served.

Supportive Pathway Opportunities (SPO) was created as a diversion program for individuals at risk or found incompetent to stand trial (IST) for felony offenses. Although, this new program is not funded by AB 109, this is an available referral option for eligible

AB 109 individuals. SPO is funded through the Department of State Hospitals (DSH) and provides quarterly reports to DSH regarding individuals treatment progress. SPO works with the CBH team in identifying individuals in-custody who are awaiting placement at a state hospital who would be appropriate candidates to participate in their outpatient diversion program as a means of reducing the waitlist/wait time, as well as providing the intensive care and support individuals would benefit from. Currently, SPO is engaging with and providing intensive services to 32 individuals through face-to-face contact, offering case management, assessments, treatment planning, advocacy, linkage to community resources, coordination of services, and monitoring individual activities. Of these individuals, six are receiving services from MHS. The focus of the program is to improve self-sufficiency for individuals served. Furthermore, SPO offers comprehensive and defined services that vary in level of intensity and address the unique needs of each individual. During FY 2022-23, there have been 19 successful graduates.

Substance use disorder outpatient services for AB 109 assigned individuals are primarily provided through KernBHRS contracted service providers. Individuals are linked to service providers through the Gateway Team. The Gateway Team is the central screening and referral service for SUD treatment for both metropolitan Bakersfield and outlying areas of Kern County. Gateway offers screening and referral services 24-hours-a-day, 7-days-a-week through the SUD Access Line. The SUD Access Line allows individuals to complete their screening and obtain a referral for treatment services over the telephone. In continued efforts to reduce barriers to treatment and increase accuracy of referrals, KernBHRS began utilizing Co-Triage. This is provisional referral tool that reduces the time needed to engage and refer individuals and increases accuracy of referrals made. The average number of individuals in SUD treatment increased 34% from July 1, 2022 to June 30, 2023 (April, May & June 2023 data are pro-rated). In addition to the increase of individuals accessing the SUD treatment system of care, the number of individuals receiving case management services increased. Of the 958 individuals receiving case management services, 718 were criminal-justice involved individuals.

The KernBHRS Mobile Evaluation Team (MET) has historically acted as an adjunct to law enforcement with community response, and it has been standard for MET to be dispatched through law enforcement. There are now two Co-Response Teams in place: one for KCSO and one for BPD. Each Co-Response Team consists of a law enforcement officer and a staff member of MET. The MET staff of the Co-Response Teams are senior-level, experienced members of the team. Individuals served are High Utilizers (HU) of law enforcement 911 services who, without early intervention, may become hospitalized or incarcerated. This joint response approach places the law enforcement officer and MET staff in the same vehicle, increasing the level of collaborative crisis care services. The Co-Response Teams provided initial contact to 46 new AB109 and HU individuals during the period of July 1, 2022 to June 30, 2023 (data provided is for 07/01/22-03/31/23). The caseload of the Co-Response Teams included 16 AB109 and High Utilizers individuals. Overall, the Co-Response Teams provided 839 services to AB109 and HU. One EMP and HU were admitted to inpatient psychiatric hospitalizations and 10 AB 109 and HU individuals were remanded to

custody during this period. In addition to Co-Response Team services, traditional MET services continue to be provided throughout Kern County. At the request of law enforcement, MET provides community-based crisis intervention services including evaluation and transportation for involuntary psychiatric care. Between July 1, 2022 and June 30, 2023 (April, May & June 2023 data are pro-rated), MET and/or Virtual MET responded to 2,590 adults with local law enforcement, 244 of these responses were provided to 147 unique individuals known and assigned as AB109, and 19 Virtual MET Responses to Adults

Inter-department collaboration within the County is a valuable asset that is greatly utilized, particularly regarding CBO monitoring. KCSO, KCPD, and KernBHRS work in conjunction to execute monthly CBO meetings, monthly on site visits, as well as individual meetings between the three departments and CBOs to examine program successes and areas where greater support and services needed.

FY 2023-24 Community Corrections Partnership Survey
Success Stories

During the FY 2022-23, one participant successfully completed two cohorts of RSAT. Following this accomplishment, he transitioned into an adult rehabilitation center for a 6-month aftercare program. As part of the RSAT program, he received a pair of work boots. He consistently produced negative drug test results. He is actively working towards program completion with the ultimate objective of enrolling in the transitional aftercare phase of the rehabilitation center.

In addition, another participant in the RSAT program accomplished both the in-custody and aftercare components within the fiscal year. Upon completing the program, both participants secured employment, and RSAT played a role in their continued success by providing work boots.

Furthermore, two participants who completed the last cohort entered a Sober Living Environment (SLE) and are thriving in their recovery journey while actively working towards program completion.

During the FY 2022-23, a total of four individuals successfully completed an SLE program, marking a significant achievement in their rehabilitation journey. Additionally, we are pleased to report that 19 individuals have not recidivated.
