Success Story

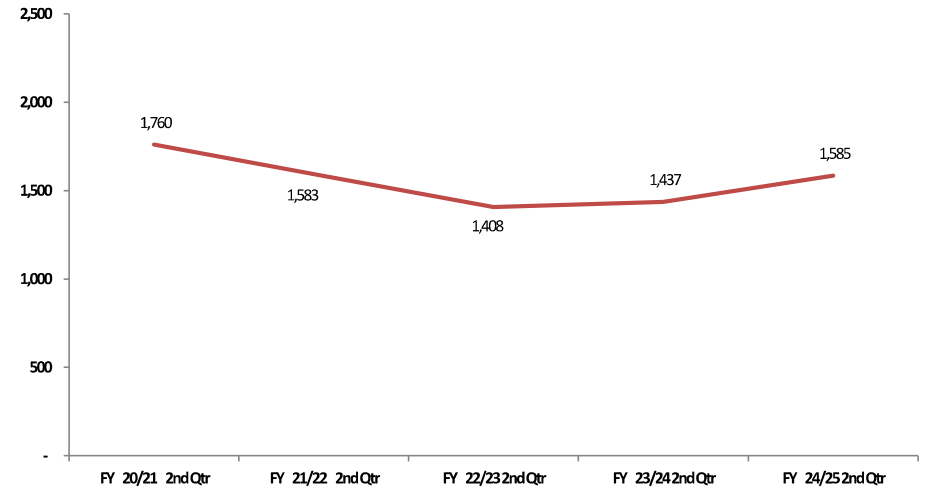

Less than a year ago, an individual experiencing paranoia and disorganized thoughts became introduced to the Adult Transition Team (ATT). In addition to severe mental health symptoms, this individual also experienced a substance use disorder. This individual engaged with a multidisciplinary treatment team to participate in therapeutic interventions, medication management, substance use disorder treatment, and relapse prevention services to address co-occurring disorders. ATT staff has helped this individual become financially stable via linkage to social security benefits. Recently, the individual demonstrated initiative to seek employment and has successfully obtained a job at a local auto business. ATT will continue to assist in this individual's journey as they plan to move into their own apartment, improve family relationships and increase self-worth and confidence.

Success Story

It has been a successful quarter for the CBO program! One of the Sober Living Environment homes recently had a participant complete the program earlier in the year, achieved reunification with their family, and celebrated their child's first birthday. Both the participant and their partner have been working full-time and are doing well. They expect to move out of state soon, purchase their first home and maintain their sobriety. One of the case management provider's noted that all of their out-of-custody participants have completed their programming, with a few participants placed in an SLE and working toward achieving and maintaining their sobriety.
